

# Design Thinking Certificate

Unlock the transformative power of design thinking to address customer challenges effectively.

Start thinking outside the box

# Design Thinking Certificate

Unlock the transformative power of design thinking to address customer challenges effectively. Learn to adopt a holistic customer-focused mindset that fuels innovation within your organisation. Elevate your problem-solving skills and reshape your approach, ensuring lasting success.

## Course format

 18 - 20 h	 No prerequisites
 Self-paced	 Join as a team
 € 995	 4 Modules
 Certificate of Completion	 Blended

## Why Design Thinking?

### Empower Your Business

Design is a way of solving customer problems using a scientific approach

### Just Do It - Like Nike

Design Thinking helped Nike become a fashion powerhouse. If they use it, maybe you could, too.

## Who is this course for?

- Product managers looking to enhance their ability to create customer-centered products
- Entrepreneurs wanting to experiment more
- Professionals interested in developing growth-driven approaches through human-centered problem-solving techniques.

## What can you expect to learn?

- Understand how empathy with your customers can lead your business to success.
- Learn how to use feedback to improve user experience.
- Know how to identify opportunities for innovation.
- Understand how to tailor a presentation to your audience and tell compelling stories.

## Curriculum overview

### Module 1 - Design thinking fundamentals & user research

Learn why is empathy important to a business. Make sense of scattered research and insights to understand the 'as-is'/current state. Grasp the triple diamond process. Advocate for the value of creating personas with diverse perspectives and scenarios.

### Module 2 - Creative ideation

Learn to use a process for ideation. Identify key performance indicators or success metrics for your design thinking efforts. Identify areas of opportunity and innovation.

### Module 3 - Prototyping and testing solutions

Evaluate usability using heuristics. Understand the fundamentals of visual hierarchy. Learn how to create a user interface using objects/elements of value. Map emotions to actions to innovate user flows and journeys.

### Module 4 - Presenting your ideas

Segment your internal audience before setting up your presentation. Identify actionable insights from your tests and research, then learn to present those insights in an engaging way.

## Industry expert

### Kevin Hawkins VP of Design at Glovo

Kevin Hawkins is an award-winning, multi-disciplinary design leader. Previously, he's been lucky to work for companies such as Booking.com, PwC, EY, and Gap Inc. He currently works as a VP of design at Glovo in Barcelona, Spain.

Our courses are designed to be practical, engaging, and fun, ensuring that learning is both rewarding and enjoyable. With a diverse range of learning formats, you have the flexibility to choose what suits you best.

## Growth Tribe in numbers

## Companies that trust us

## What do our customers say?

### Katie Hudson

Senior Product Operations Manager

If you want a course where you sit in front of a screen and listen to a PowerPoint, this is not the course for you. If you want a course that is actually engaging, practical and will let you use real examples, it's really helpful. The skills that I gained from the course definitely helped me in my interview process to the next step.

### Ashley Mclean

Product Designer

I liked how we were collaborating. That's what sets Growth Tribe apart from the course that I did with Coursera, which wasn't interactive. I'm a person who likes collaboration.

### Merran Wrigley

Group Marketing Director

As a brand and marketing professional, I found the course entry to approaching my work in a more data-driven and analytical way. I know I will start benefiting from this new knowledge from the first day back in the office. So the investment in terms of time and money will be immediate to both me and my company.

**Zsofia Lele**  
Co-founder &  
Growth Manager  
Pippadu

*"It exceeded all my expectations. I started it just after I got a new job as Product & Digital Marketer in a startup and the course gave me a huge boost. It was really practical, exactly what I needed and I could implement what I learned right away."*

**Theodor Andrei**  
Growth Marketer  
Marveltest

*"Growth Tribe challenges the status quo of universities / MBA programs / etc which have fallen behind in terms of teaching people skills for the data age. You learn far more in one of their 12-week classes than an entire top-tier 3-year degree."*
