🏅 Certificate of Completion	🖥 Blended

Why Project Management?

Highly Sought After Skill
2.3 million new project management employees will be needed each year to meet global talent demands by 2030. (PMI, 2022)

Saving You Time and Money
By incorporating proven project management methodologies, you can save up to 28 times.

Who is this course for?

→ Existing project managers looking to enhance their understanding of project management methodologies, and validate their experience.

→ Business leaders or consultants who want to optimise project timelines and resources to save time and money, and increase efficiency.

→ Both beginners and experienced professionals will benefit from the foundational knowledge and confidence they will gain in regards to setting up successful projects.

→ Students and recent graduates looking to build their project management skills as they start their careers.

What can you expect to learn?

→ Become familiar with best-practice project management terminology, methodologies and frameworks.

→ Align business strategy with action by providing a structured approach to planning, executing, and delivering projects, resulting in increased efficiency and a higher likelihood of achieving desired project outcomes.

→ Learn how to identify and communicate with stakeholders, secure their buy-in, and keep them engaged throughout the project.

→ Develop your leadership skills, leveraging your strengths to ensure project success.

GrowthTribe

Curriculum Overview

Module 1 – Terms, Methods and Approaches
Develop a solid foundation of project management principles, methodologies, and frameworks.

Module 2 – Project Initiation, Stakeholder Management and Business Strategy
This module focuses on the critical aspects of accepting a project and managing stakeholders relationships. Learn to align business strategies with project goals to achieve optimal results.

Module 3 – Project Planning and Documentation
Assess critical project elements, such as project governance, scoping, scheduling and cost. Develop accurate project documentation.

Module 4 – Project Execution and Leadership
Lead and execute successful projects, drive innovation, and achieve organizational goals by effectively managing resources and learning about your management style.

Module 5 – Project Monitor, Control and Communication
Gain the skills and knowledge to manage project performance and communicate effectively with stakeholders, ensuring projects are delivered on time and within budget.

Module 6 – Project Closure, Teams and Interpersonal Skills
Gain the tools and expertise needed to lead teams to successful project completion by strengthening interpersonal skills and mastering the project delivery handover.

What do our customers say?

Katie Hudson
Senior Product Operations Manager

shopify

If you want a course where you sit in front of a screen and listen to a PowerPoint, this is not the course for you. If you want a course that is actually engaging, practical and will let you use real examples, it's really helpful. The skills that I gained from the course definitely helped me in my interview process to the next step.
## Ashley Mclean
Product Designer

bloom growth

I liked how we were collaborating. That's what sets Growth Tribe apart from the course that I did with Coursera, which wasn't interactive. I'm a person who likes collaboration.
Merran Wrigley
### Group Marketing Director

BROUGHTON

As a brand and marketing professional, I found the course entry to approaching my work in a more data-driven and analytical way. I know I will start benefiting from this new knowledge from the first day back in the office. So the investment in terms of time and money will be immediate to both me and my company.

"It exceeded all my expectations. I started it just after I got a new job as Product & Digital Marketer in a startup and the course gave me a huge boost. It was really practical, exactly what I needed and I could implement what I learned right away."

Zsofia Lele
Co-founder &
Growth Manager
Pippadu

"Growth Tribe challenges the status quo of universities / MBA programs / etc which have fallen behind in terms of teaching people skills for the data age. You learn far more in one of their 12-week classes than an entire top-tier 3-year degree."

Theodor Andrei
Growth Marketer
